

## HOUSTON AREA MATH INITIATIVE

## MIND Research Institute

Invite you to attend a meeting to learn about an exciting grant opportunity designed to impact math achievement among students at invited Project GRAD schools throughout the Houston area.

### Funding will provide:

Perpetual licensing for MIND's innovative, research-based, visual instructional software for grades K-5 at the elementary level or the Secondary Intervention instructional software program for secondary schools.

Funding will also provide training for teachers and administrators on powerful program implementation and classroom teaching strategies.

If you have not yet done so already, please RSVP as soon as possible with the names of the people who will attend from your site and any district invitees.

See you there!
